Care tailored to you

Personalised care plans ensure each person in our care has the support they require from a team of experienced and passionate care staff.

At Hagley Place residents are treated with dignity and respect. Our approach to care is based on the use of tailored care plans. These are drawn up with the individuals and their families to identify all care needs. Each individualised care plan ensures the highest standard of care, dignity and respect for each person.

Residential care

The residential care we provide supports older people who might need help with the tasks of daily living, including washing and dressing, but who don't require nursing or specialist care.

Nursing care

Our skilled and professional nurses identify your nursing and care needs. A nurse is on duty 24 hours a day to deliver care, and to ensure the quality of care being delivered.

Dementia care

Hagley Place provides dedicated care to those living with various stages of dementia. This part of our home provides a comfortable, safe environment, uniquely built to promote independence and build self-esteem.

Our staff receive bespoke dementia training delivered by Barchester's team of dementia care specialists, to reduce distress, increase well-being and improve quality of life for people living with dementia.

Respite care and short breaks

A short break or respite care is ideal for those looking for a bit of extra care, either following a hospital stay, illness or if their usual care is not available. It also gives you the opportunity to see what life is like in our home and if it's the right place for you.

We offer an array of stimulating activities every day that are tailored to the interests and abilities of the people we support. Each activity is designed to enhance life skills and give a feeling of purpose and self-worth, encouraging residents to choose whether to continue with existing hobbies or try something new.
