

Meet our Manager and find out how we can help.

Saturday 10th April

5 reasons to choose our home with confidence...

- 1** We're delighted our residents and staff have been prioritised to receive the COVID-19 vaccination. We're making our home as safe as possible and will ensure that all new residents are vaccinated before moving in.
 - 2** Each staff member receives specialist training across a reassuring range of skills, from infection control through to specialist dementia care.
 - 3** Our COVID-secure visiting suite enables family visits in warmth and comfort, and garden visits are always welcome when the weather allows.
 - 4** Food and nutrition plays an important part in our home, with delicious and nutritious meals that are carefully prepared by our talented on-site chefs.
 - 5** Meaningful activities ensure each individual can continue doing the things they love, whilst discovering new hobbies to keep the fun in every day.
