barchester.com/Elgar

Our way of showing we care.

Making the move into care doesn't mean you have to lose who you are. In fact, we hope it's the opposite. We'll learn your likes and dislikes, support your interests and passions, and warmly welcome those important to you, so you can continue living life just the way you choose.

Expert support from passionate people

When choosing care for yourself or a loved one, we know trust is important. Caring for others requires compassion, dedication and patience, and these are the qualities we look for in our people, along with the experience and skills to help us consistently deliver on our standards of care.

Meaningful moments

It's important to find joy, purpose and fulfilment in each day, whatever that looks like for you. From everyday interactions to activities, events and outings, you'll feel the passion and creativity that goes into making sure there's always something of interest on offer.

Nourishing mealtimes

Good health and well-being starts with good nutrition – and we believe choice around what, when and where you eat is important too. You'll enjoy delicious and nutritious meals created with personal preferences in mind, light refreshments at any time, and the flexibility to spend mealtimes in company or in your own space.
